MOSIS Pre-Code Workshop

October 2005

Outline

- History
- MAP 2006
- Why Pre-Code?
- Student Barcode Labels
- Pre-Code Roster

- ID Locator & Pre-Code
- Submission Process
- Correcting Errors
- Re-validation
- Certification

History

Student Information Sheet/Form (SIS/SIF)

 Districts contract with testing contractor for pre-code

Many districts did not pre-code

Special Education and Invalidation codes

MAP Data Collection 2006

- DESE contract with testing contractor for pre-code
- Most districts will participate in pre-code
- Pre-coded student barcode labels

Special Education and Invalidation on the SIS

Why Pre-Code?

 Increased data quality/decreased data correction

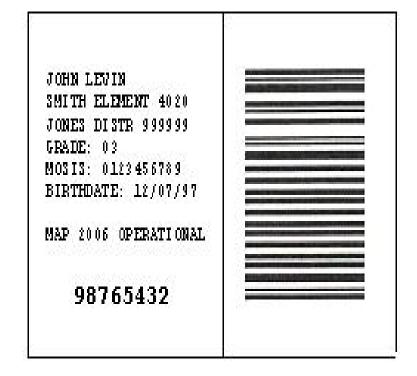

Decrease data reporting burden

MOSIS ID

 Ability to monitor student performance over time

Student Barcode Labels 2006

- Districts submit pre-code file to DESE
- DESE submits file to testing contractor
- Barcode label and pre-code roster generated
- Districts verify information on barcode label and precode roster

MOSIS ID Locator and Pre-Code

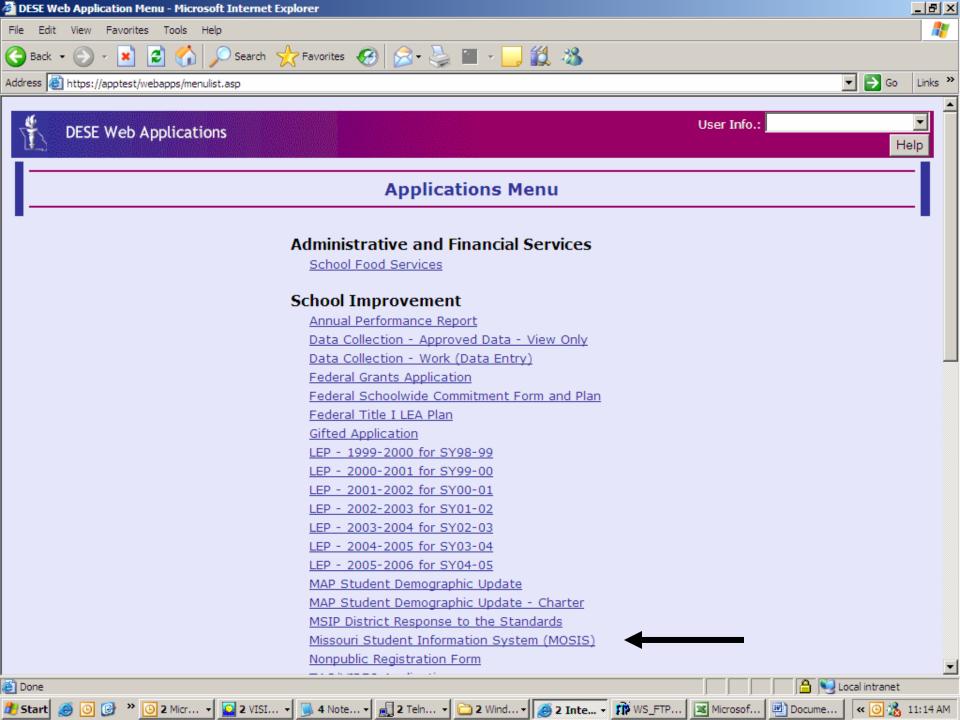

- Different systems, but working toward overall goal of a student data collection system
- Security District-level MOSIS access
- Cannot submit pre-code without prior MOSIS submission
- Multiple batches vs. single saved trial
- Some overlap in data collected

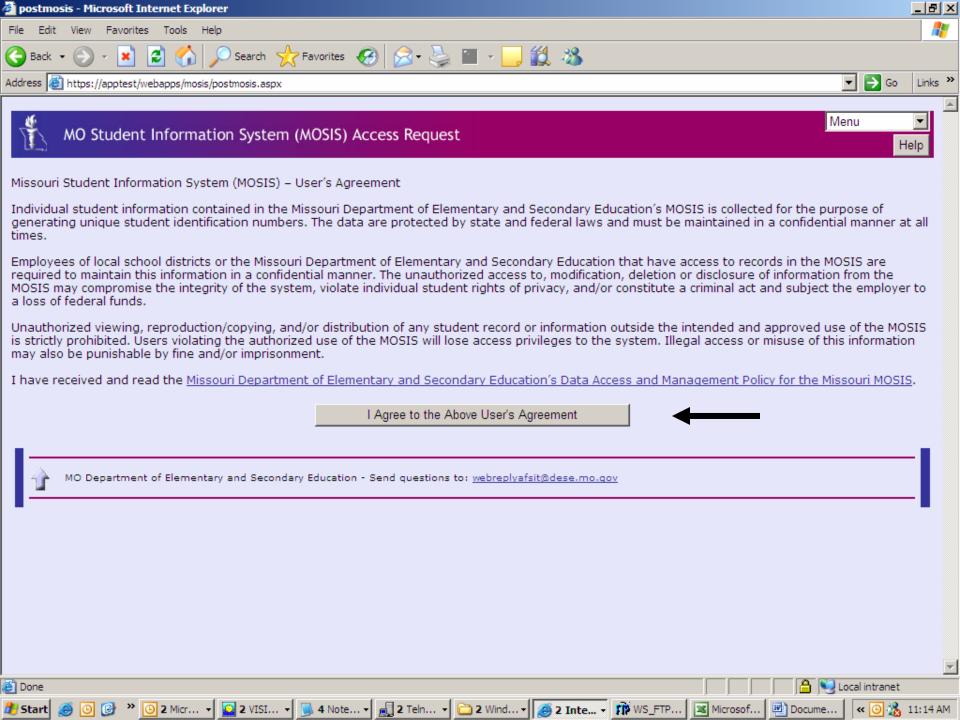

Submission Process

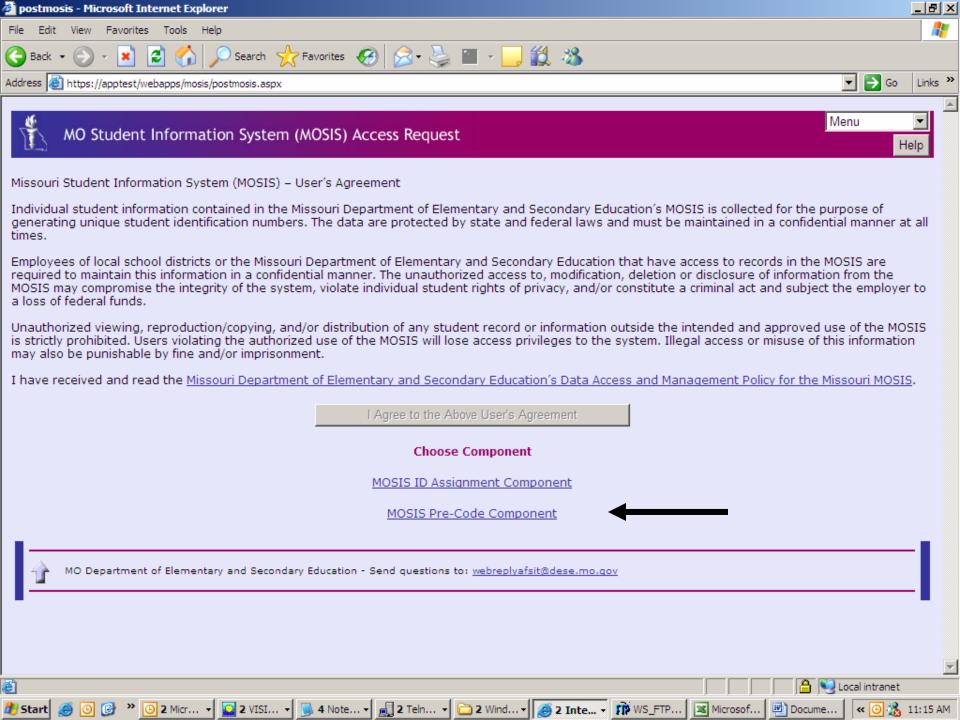

- Submit trial to reflect enrollment at time of pre-code submission
 - Working trial
 - Saved trial
 - Certified trial
- Work with student records system vendors
- Districts without student record system

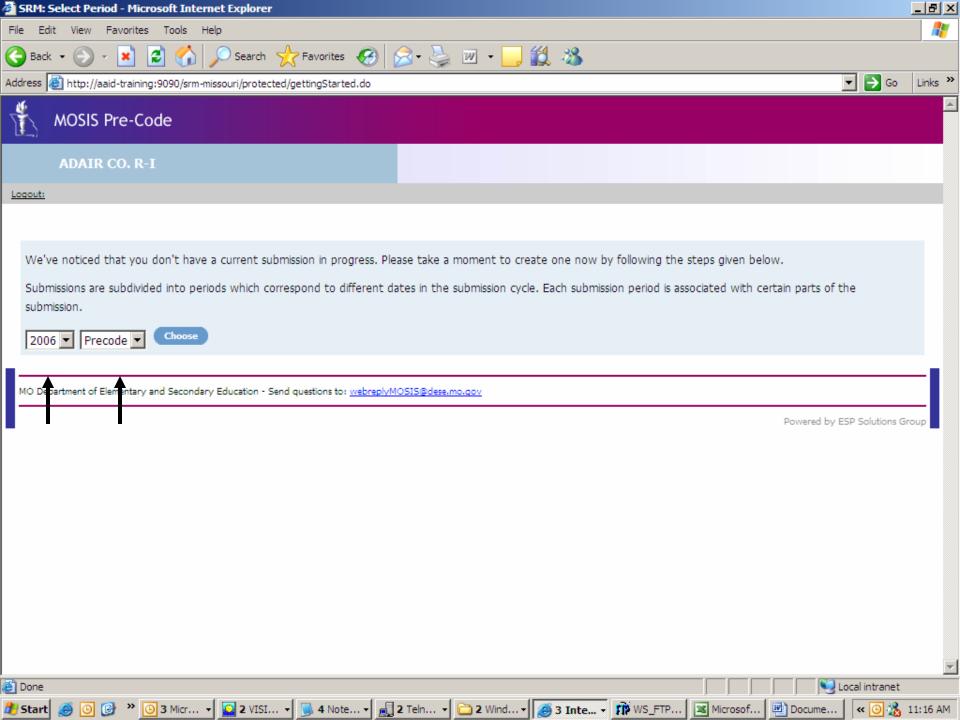

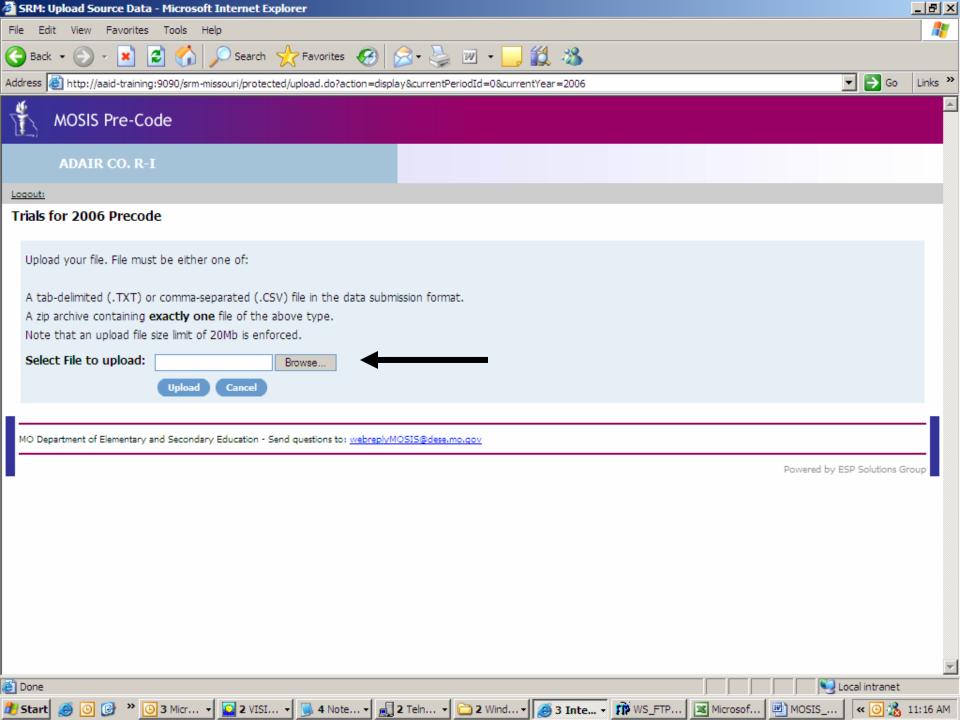

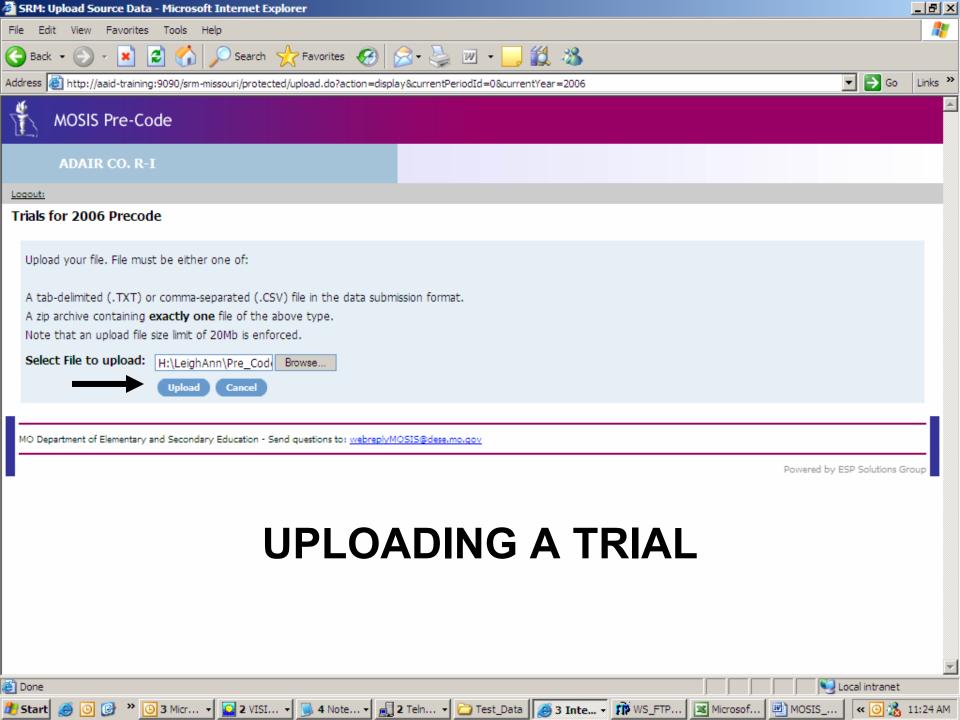

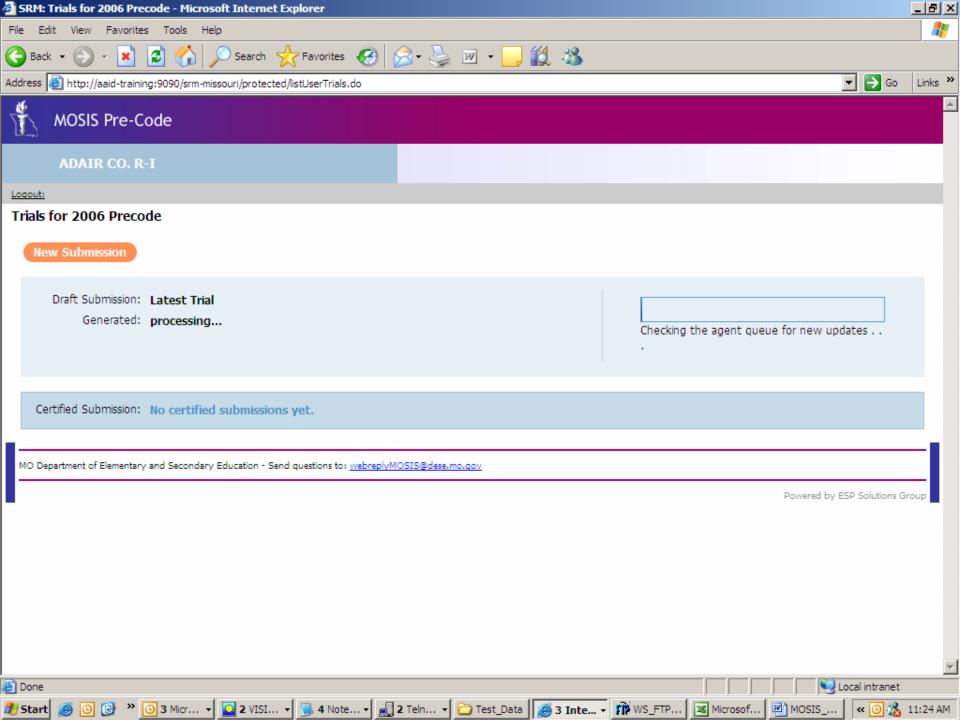

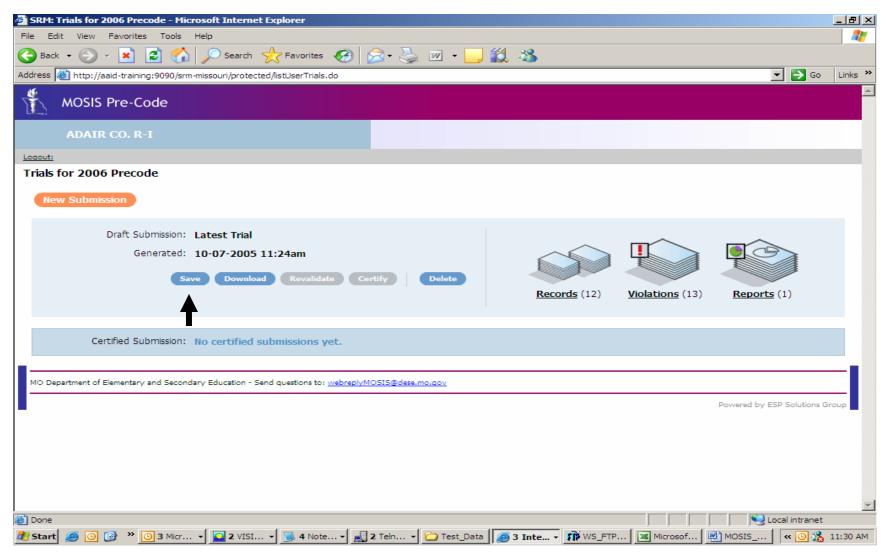

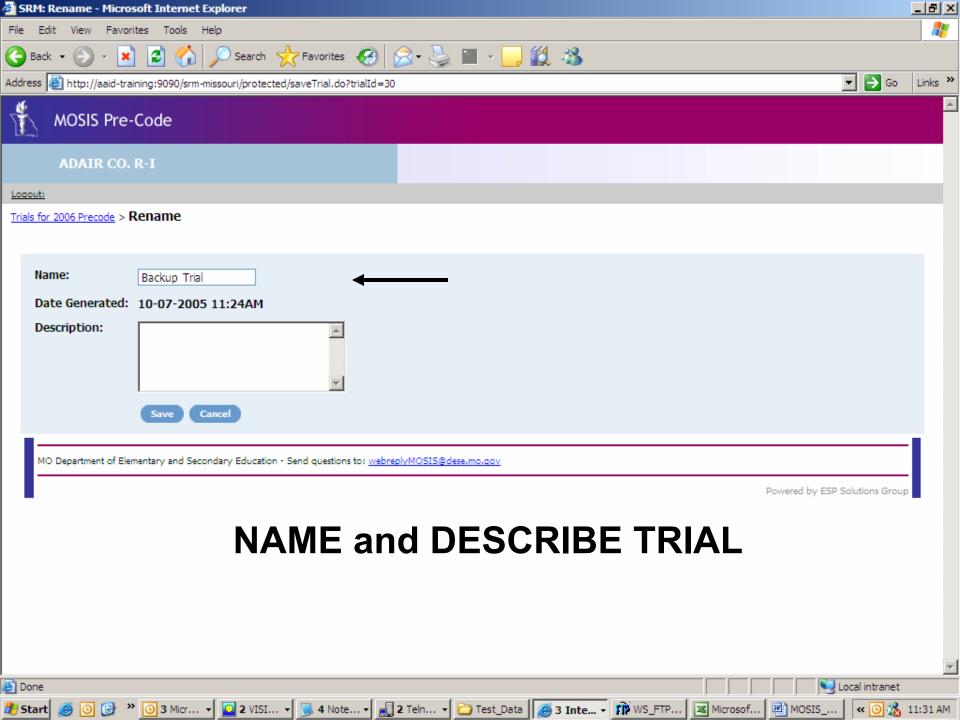

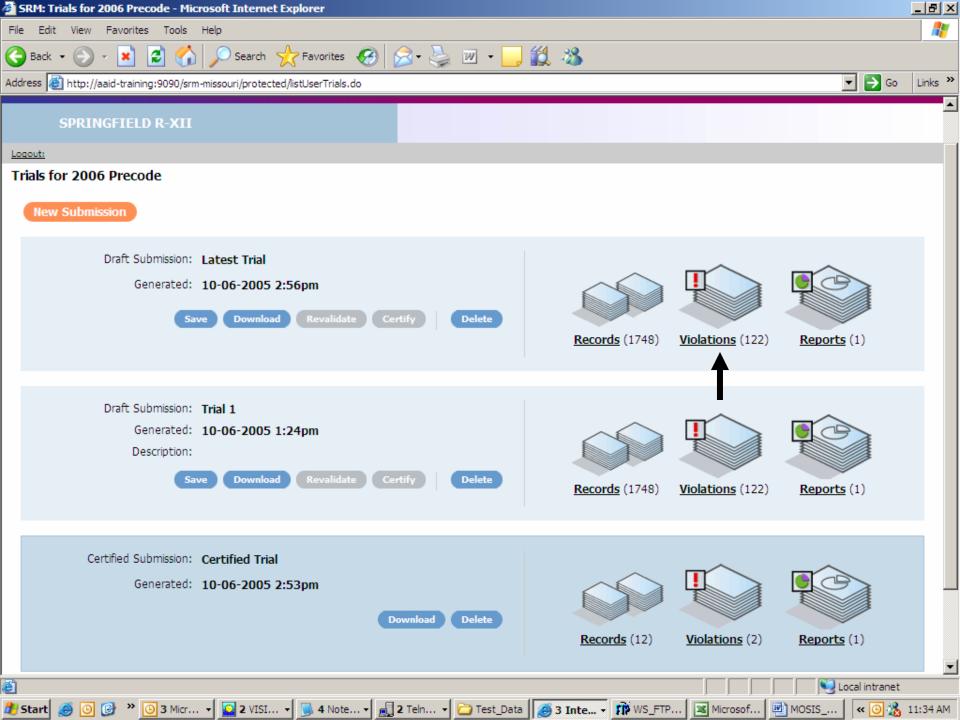

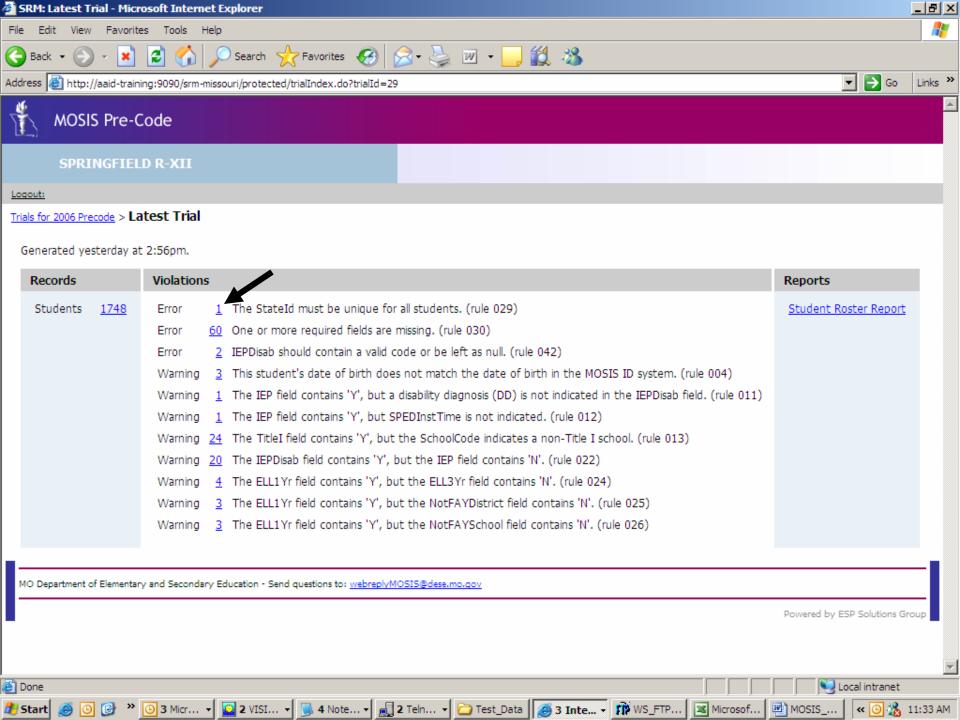

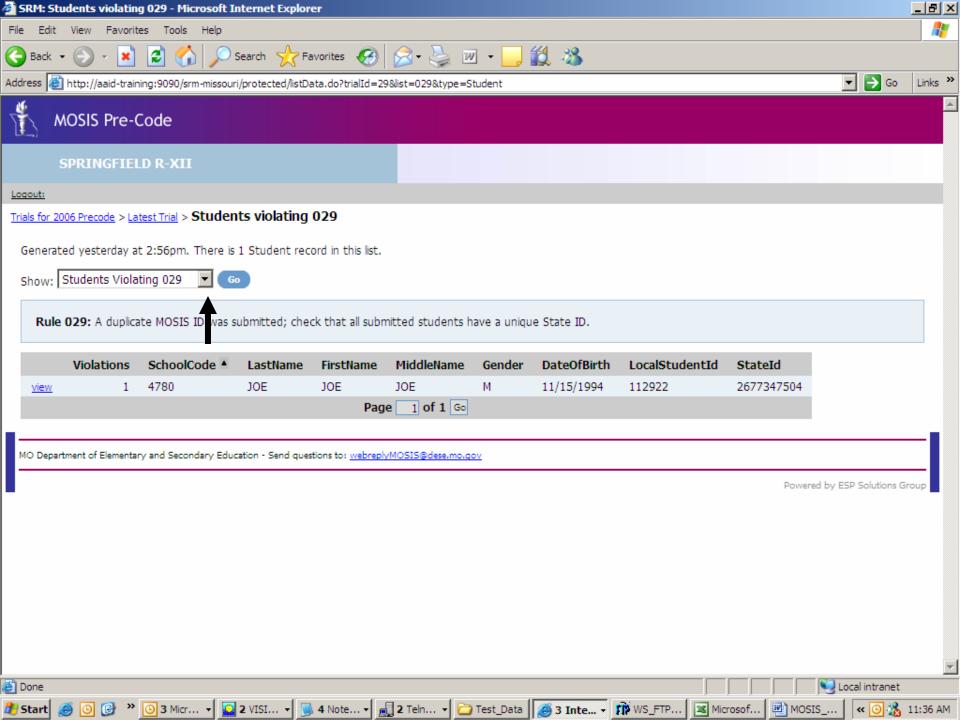

Saving a Trial

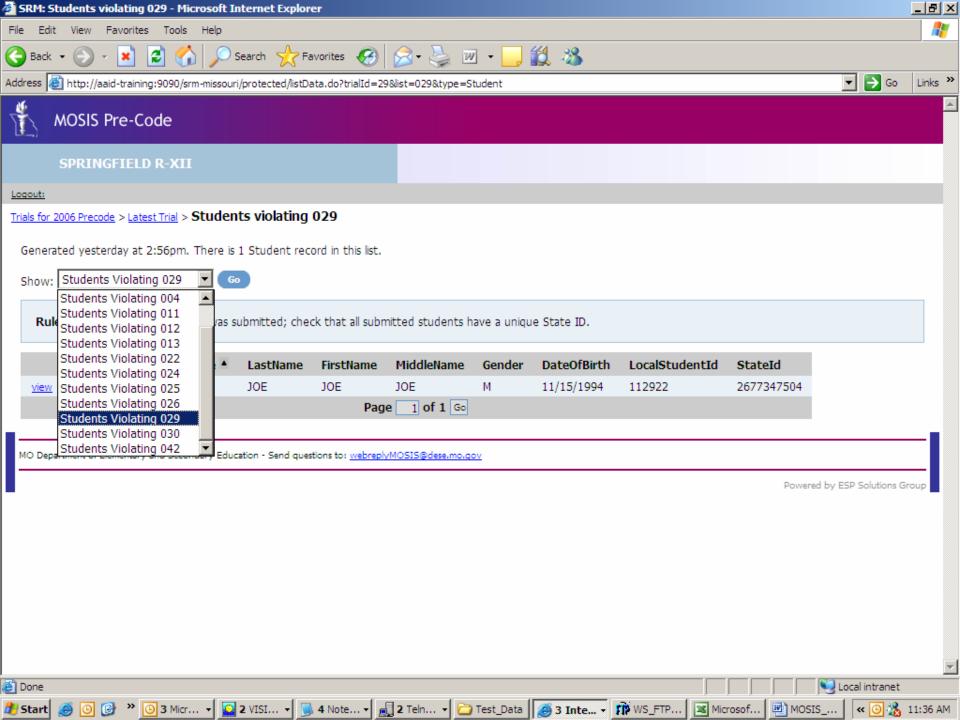

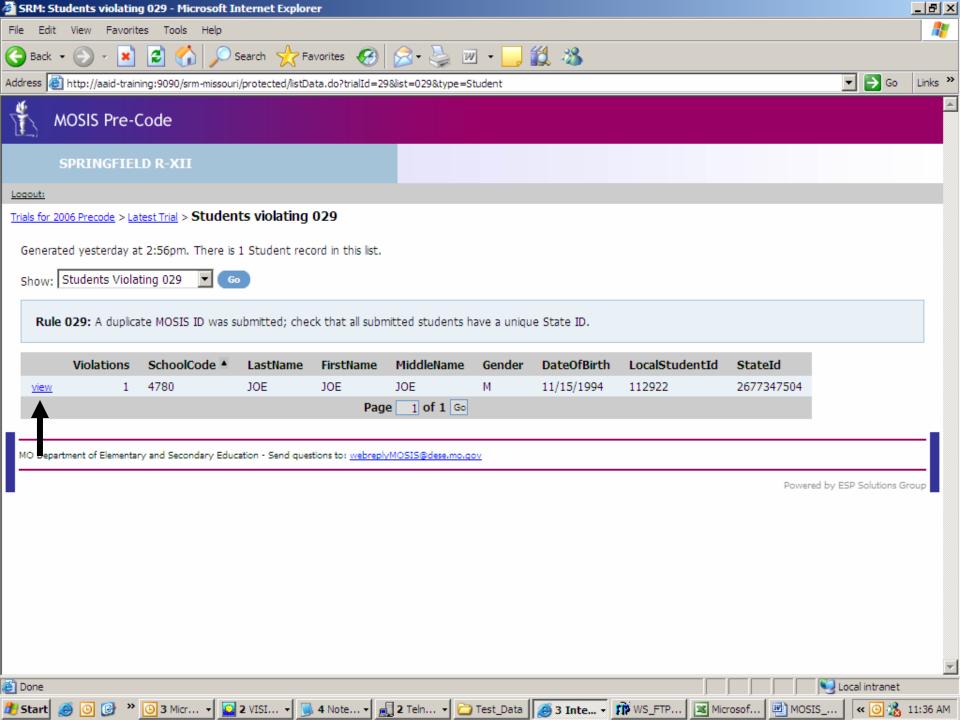

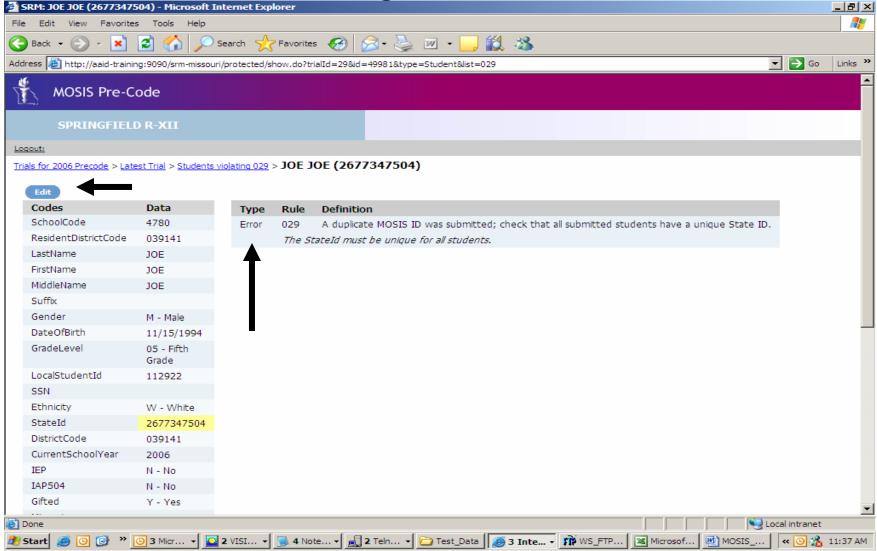

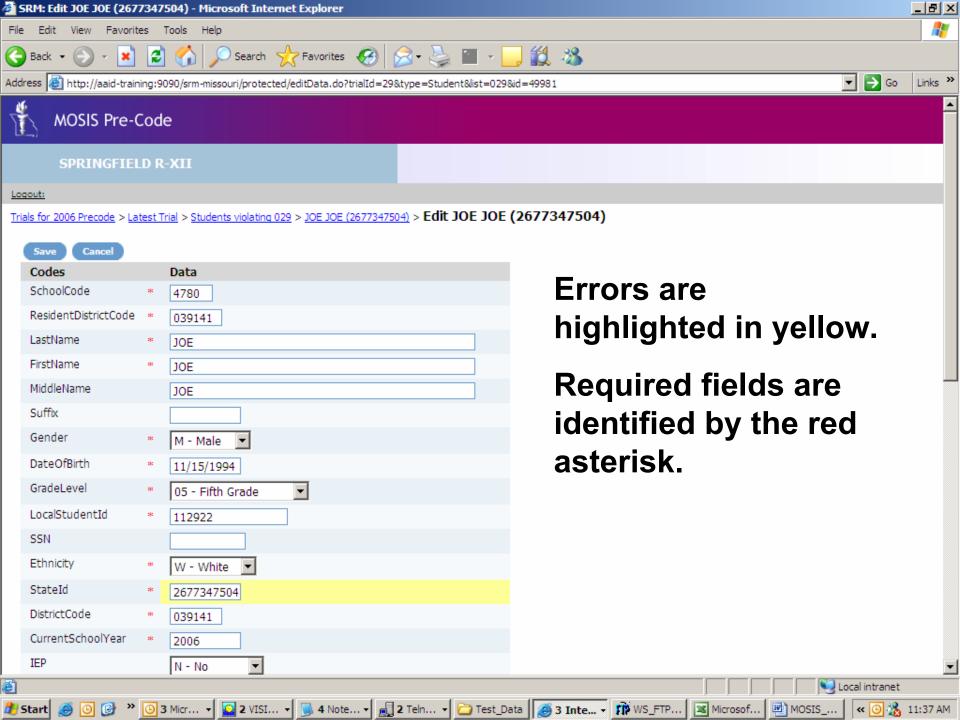

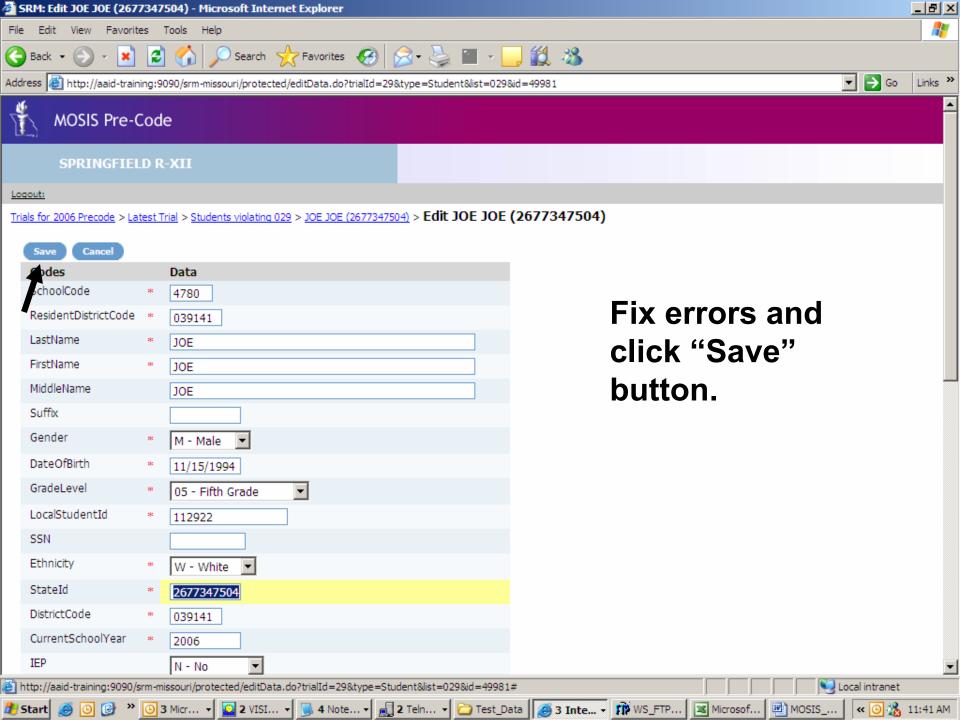

Correcting Errors

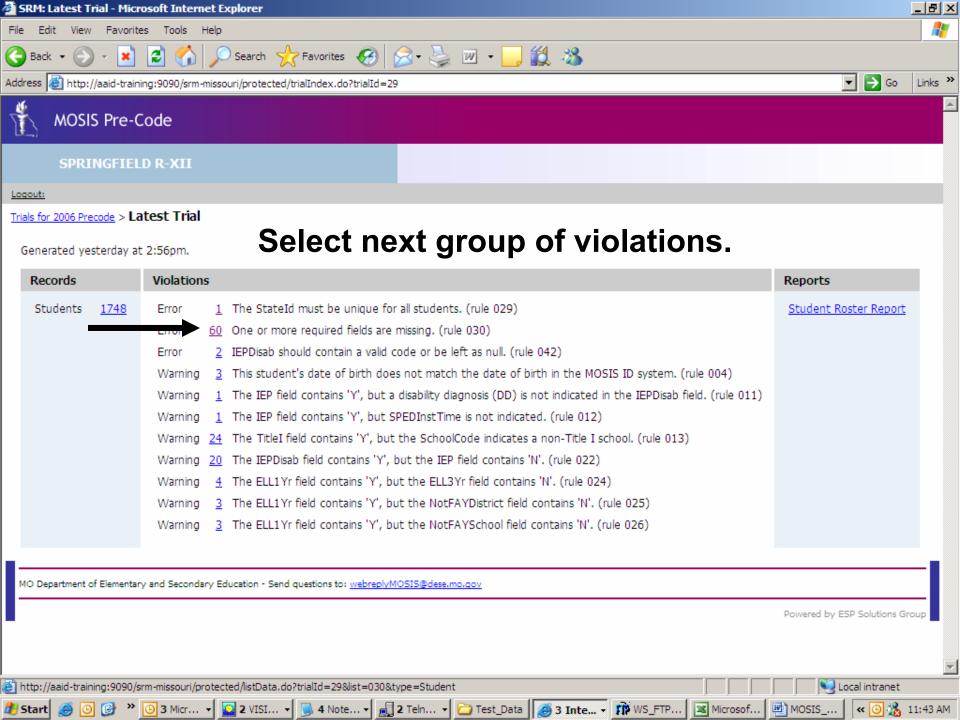

- Correct errors online works well for small numbers of violations
 - Remember to download corrected file into local system

 Correct in local Student Record System and re-submit file – works well when there are a large number of errors or several errors of the same type Correcting Errors Online
